

## 4 Channel Conventional Mobile

# T2010

4 channels  
● Channel scanning  
● Data capable  
● Complete band switching\*  
● PC programmable

- **4 Channel Capacity** - Each channel has programmable output power and CTCSS/DCS for call privacy.
- **Channel Scanning** - Monitors all your important channels, ensuring your calls are not missed.
- **Comprehensive Signalling** - Allows groups of users on the same channel to speak in private. Selective calling covering European and international requirements may be provided as an option and operated with CTCSS and DCS.
- **Complete Band Switching** - Operates across the complete frequency range of the model without any need for tuning (\*excludes 800MHz and 900MHz models).
- **Busy or Mute Channel Lockout Option** - Prevents interference with other users by limiting transmission when the channel is already in use.
- **Data Capable** - The T2010 is an excellent building block for data products. This may require an optional data modem to be fitted.
- **PC Programmable** - Simple programming by PC enables the radio parameters to be set via the microphone socket.
- **Rugged Construction** - Solid, die-cast chassis and covers, and SMD technology for durability.
- **Integral Speaker** - Provides loud and clear sound for communication in demanding environments.
- **Economy Mode Option** - To conserve battery power, your mobile can be programmed to partially switch off after a pre-determined period of inactivity.
- **Easy to Use** - LED indicators, audible tones and clearly marked, well-spaced keys help ensure simple, error-free operation. Back-lighting of keys makes night operation effortless.
- **Security** - The T2010 can be locked in its cradle.

CONNECTIVITY · RELIABILITY · FLEXIBILITY

Tait is your complete supplier of radio communications equipment, with Mobile, Portable and Infrastructure solutions.

**Weight**  
1.2 kg  
2lb 10oz

**Standard Features**  
Channel Monitoring, Programmable Busy Channel Lockout, Programmable Economy Mode, Transmit Timer.

**Options**  
Selective Calling, DTMF ANI Encode, DTMF Microphone, Heavy-duty Microphone, Desktop Microphone, Hands-free Kit, Power Supply, Remote Speaker, 600Ω Line Interface Kit, Data Modem, Scrambler.

**Supply Voltage**  
13.8 V nominal  
10.8-16.0 V range

**Technical Compliance**  
For details of technical compliance, contact your nearest Tait office or authorised dealer.

**Transmitter Power**  
25W  
22.5W 500-530 MHz  
15W 800 MHz, 900 MHz

TAIT Electronics Ltd is an ISO 9001 registered supplier. Certificate No. 461.
